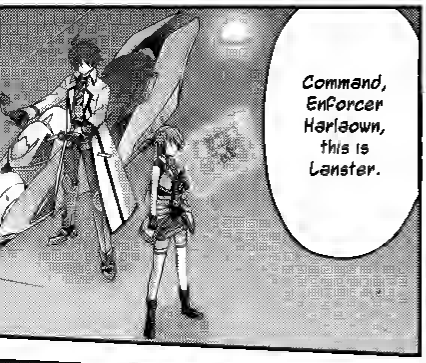
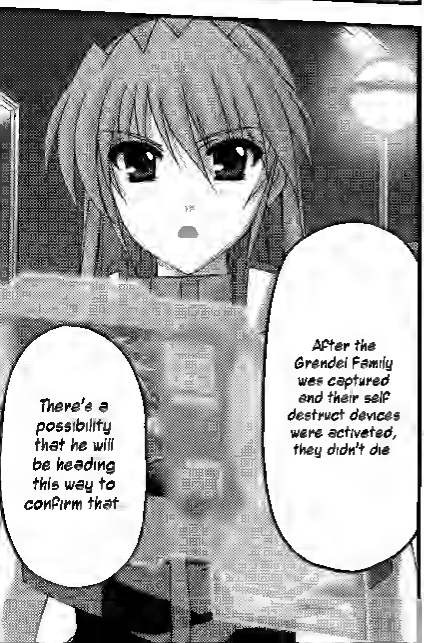
We have received testimony of Hades Vandein's involvement!
All of the Grendel Family members have admitted to his involvement and to acting on his orders
And also that their internal Reactors were previously supplied to them by the Vandein Corporation in exchange for their cooperation!

What is Hades' current location?
Right... Roger that.
We'll be on our way shortly.
With this, we can secure a search warrant!
Command, this is Lightning 1.
Yep. I heard.
I'll be moving to secure the suspect.

ヒュェ!
ちょい
You'll need some members to help with securing him Your backup will be...



Command, Enforcer Harlaown, this is Lanster.



There's a possibility that he will be heading this way to confirm that
After the Grendel Family was captured and their self destruct devices were activated, they didn't die

?
Roger!
Stars 1, if you would.

There's a risk of him resisting arrest or attempting to flee. I'm requesting clearance for the forward team to accompany.
Captain Takamachi will meet up with Instructor Vita and the forward team and escort them to the site.
If that's the case, the apprehension team will be made up of the two enforcers Fate and Lanster.
ROGER!

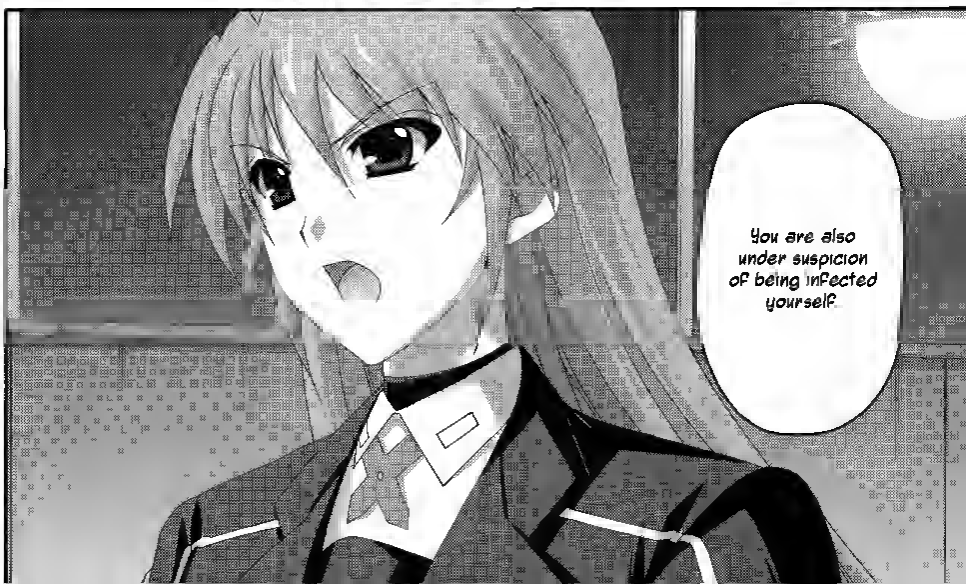
My, my...
The bio division dropped the ball on that one. I should've kept a tighter leash on them
The self destruct devices were activated, but all of them are still alive
The Grendel Family has been apprehended.
IF THEY ARREST YOU, THEN OUR COMPANY WILL BE IN THE GREATEST CRISIS IT'S EVER...
IT'S NO GOOD, DIRECTOR...! IT'S ALL OVER...!
Driver of the blue passenger car: pull over and stop.
You're always so overly dramatic.
Vandein's a big company. We can come back from the loss of a single planning office or so.

This is the Bureau's Traffic Division. Please pull onto the shoulder and stop your vehicle.
Hm— Fast as expected.
My, my, if it isn't Enforcer Harlaown.
Is something the matter? I don't believe I've violated any traffic laws.

Moments ago, a warrant was issued for your arrest

You are under arrest for suspicion of illegal research in relation to the Eclipse incident, as well as inciting large scale criminal activity.



You are also under suspicion of being infected yourself.

But do not be concerned. We have personnel in place in the air and on land watching over you.
They are standing by in the event that you show signs of an outbreak or any other emergency situation.
I see, I see.
You certainly have a way with words.

However...

An illusion... no, just intimidation?
Even then, that killing intent...
Oh? Is something the matter?
You realize that acts of aggression are still considered obstruction of justice, correct?
Do you wish to add that to the charges?

My, how unthinkable, I have done nothing of the...
Teana
Ah... Right!
Taken into custody at 22:35.
Aah, before I'm taken into custody, might I call my company and daughter?
I'm afraid not. We'll be contacting your company and family members.
Whew...
Th... that was a terrible mental image he caught us in...
It was pretty shocking~

BUT I DIDN'T FIRE! I SAW THROUGH IT!
Even you were starting to pull the trigger there for a second
I could feel that killing intent even from this range... He's no amateur.
Thank you Caro, but it's fine.
He's a dangerous person! Rather than take him over land, should I carry him with Fried?
Right
Alright, let's continue our guard duty.
I'll leave it to you then!
Don't worry. We won't let him intimidate or attack us.

Commander... does this mean the investigation is going to continue moving forward?
It'll advance by one step, at the very least.
I doubt we'll be able to get information out of Hades that easily, but... we've got the ball rolling with his arrest.
Well, we won't be dropping our guard, but if we're careless, we won't be able to improve our communications with them.
And we'll need to speak with everyone from the Grendel Family a bit more as well.
We can't let our guard down around Kurt and his cohorts yet.
We can't tell what's going through their heads right now.
That, and soon we'll need to learn the circumstances behind the Huckebein as well.

Right now, the most important thing is to arrest them and get them into an interrogation room.
From the beginning, I wanted to let it just take care of itself, but them being criminals has changed that.
...Will it come down to a conflict?
If it's just plugging them for information, then we have other ways of doing that too, but thinking about things like that is the adults' job.
Well then, I guess it's time I paid the Grendel kids a visit
Right! I'll escort them!
Yep. So make sure you listen to your superiors and guardian.
And the apprentices' is to follow orders.

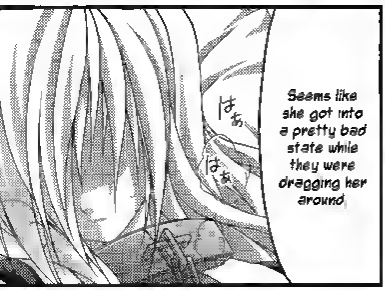
Have no fear~ For I am here!
Yo~ Sonica! Cy!
Welcome back.
Good work with investigating that Grendel group.
...It was a rather embarassing outcoma, but At least I got my hands on the target.
MEAT!
I got you a souvenir, Ar. Roast chicken from the Lieben Hotel.
5000 is okay for the home delivery charge~
I've said it a million times already, but if you're gonna charge me, you can't really call it a souvenir anymore, right?
Where's Vey? I brought him a souvenir too.
Aah, Veyron is...

Hey Vey, we're coming in~



Seems like she got into a pretty bad state while they were dragging her around.

Heh~
Every now and then her labored breathing will wake her up, so we've been taking turns nursing her.

She's a Reactor Plug. We picked her up off some stray infected me and Vey beat up.
And this girl is?

'Sup!
You guys, huh?

They're Curren's orders. I'm just taking care of my shift.
She's no relative of mine. And I'm not doing this because I like it.
Yay, you're always so soft on your younger siblings, huh~
Alright, alright
Come on, Sonca Take a look with that Fortunetelling you're so proud of
Fortis and Stella can't figure out what's wrong with her.
Then I'll do a little palm reading.

Her Strosek Series R designation is Code 005.
Her manufacturer was the Vandein Labs and her biological age is 14 years, 7 months.
Her individual name is Rosalia.
YEAH! NOW WE KNOW A LOT MORE!
Splendid, as always.
Let me write up how to go about data restoration for you.
YES~!

To us Huckebein, she is an excellent informant, and a mighty card in aggressive negotiations
By coming into physical contact with her target, her palm reading allows the subject's biological data to come to her mind, along with the ability to read their memories "InFormation/Memory Steal"
But her shortcomings are her predilections toward moving at her own pace, constant tardiness, and...
In this way, to every day society she's just a "Fortuneteller", but in the underworld her ability has made her into an "irrepiacable interrogator."
If she has the time to read the inFormation gathered from her palm reading, with her personality she can pull out every little piece of inFormation it contains.
The Fortune reading fee! With the Family discount, I'll settle for 800k.
Huh?
Alright then, Ar.

GYA~H~ NOT THAT! ANYTHING BUT THAT~!
If you're not gonna pay, then maybe I'll just have to let slip some of Ar's embarassing memories~
She's a hopeless money grubber.
THAT'S SO STEEP~!!
It's not steep! People fork out ten times that for my speciality without batting an eyelid.
Dammit, she bled me dry.
The world is made of money!
If you have money, you can do anything!
Well, isn't that nice.
Yeah, whatever.
Hey you! Once you're better, I'm gonna work you hard to pay this back, got it?
And I'm gonna keep track of the interest that loan accrues, so you better get better quick!

I'm sure now that Vandein's been taken into custody, his rampaging child organizations will come out
Hey~
There's a possibility they'll make an assault on the prison as well.
I really would like to hear from that man directly.
If we see an opening, shall we butt in a bit?
Hm~ I suppose so...
We'll have to select the members.
IF it comes down to a battle, I suppose. I really couldn't care less, but they seem raring to go on their side
And preparing for the Special Duty Section?

Me, Veyron and Sonica too, I guess.
Let's go have a little chat.
As quietly and cool as possible.

Four days after the Grendel Family's attempt to hijack the Raptors
and the arrest of Hades Vandein
The news continues to show stories of supervising managers of large corporations being arrested one after another
The top management's apologies fell on deaf ears, and the fate of the Vandein Corporation is in a precarious state
It's everyday with this. All over the news.
Seems like everyone likes this kind of news

You're right
It's good for the bad guys to get what's coming to them
And I'm glad that the Raptors are fine too. It'd be great if the Eclipse Incident could calm down a little with this.
Huh? Now that I think of it, where's Thoma?
He got up really early this morning and went to the galley
Well, there's still the matter of the Huckebein to go
He said he was going to make lunches with Miss Caro for Miss Fate and Miss Teana.

Wah~ Chicken and vegetable sandwiches! Tea really likes those.

Your lunch looks excellent too Caro
You definitely need Japanese food when you're feeling tired!
After all, Fate lived in Japan for awhile when she was a kid.
キラ
キラ
キラ
キラ

Ah So you two came after all.
Airi~ght!
I made some finger food for you just in case.
T.A

His camp food was really good while we were on the run too~
That's right, I forgot.
Thoma was a good cook, wasn't he?

Good morning~!
Su-chan, you're late!
Ah, right, good morning!
WAH~! SORRY, SORRY I'M SO LATE~!
We're already finished now. Unfortunately, since Su-chan didn't show up, there's no time left for you!
AH~N! THE OTHER DAY YOU WERE FREE AND TODAY YOU WERE FREE, BUT MY TIMING IS JUST SO BAD~!
Well, for now, you can at least get a taste of the sandwich!

ほっぺ～
Delicious~!
ん

Are all of these for those two?
Miss Shari and Wendy are going to be there too. And our lunches are here as well.

Thoma and Miss Coro are amazing~
Right~
WHA WHAT MARVELOUS CONSIDERATION!

AND ALL THE SIDE DISHES ARE BITE SIZED! A MENU DESIGNED FOR KEEPING YOUR HANDS AND MOUTH CLEAN, SO YOU CAN GET A BOOST OF ENERGY AND STILL GET MOVING AGAIN QUICKLY!
WHEN YOU'VE GOTTA EAT, EVEN ON THE GO, IT'S TIME FOR SANDWICHES AND ONIGIRI
ほ!!
ん!!

The two enForcers will be heading out First Lightning S, Erio, as well as Caro and I will be accompanying them
That's right. We'll be escorting the suspect, Hades Vandein, to the Ground HQ on Mid-Childa
Alright Lily, Isis, it's about time we head out
Huh? Us too?
ROGER!
And we'll be taking along the trainee trio for guard duty
Treat us well!
OH~
ALRIGHT, THEN LET'S HEAD OUT FOR TODAY'S OPERATION!

Well now. Old man Vandein's been caught.
Hah? How d'you figure?
Sleep talking's just for talking in your sleep, dumbass head
And it ain't so bad, hangin' around here. It's a so-so vacation
Our collars are off and our wounds have healed
Don't mind me.
I can still use my ability even in conditions like these anyways...
